

Virtual Electrical Troubleshooting Conference

Friday, November 4th from 8:00 AM – 4:30 PM CST.

REGISTER
NOW FOR
\$195

TPC Training, the nation's leader in training for maintenance personnel is now offering a unique opportunity for you and your technicians to improve your electrical troubleshooting and repair skills by attending this high-impact, one-day live virtual conference on Friday, November 4th. We understand that keeping your facilities running efficiently while reducing downtime is more important than ever and this event is designed with that in mind.

This conference features two simultaneous tracks with 12 total learning sessions led by two presenters. (See page 2 for track information.) Attendees will have the flexibility to move between sessions freely and are not committed to only a single track. They can mix and match sessions that best fit their interests.

Get all the details about this conference here: live.tpctraining.com/Nov2022Conference

What registrants will receive:

- Live access to any of the 12 live instructor-led electrical troubleshooting-focused sessions.
- Access to TPC Electrical Troubleshooting Simulations for 30 days after the live event, allowing registrants to apply and advance their troubleshooting skills immediately.
- Access to all session recordings for 30 days after the live event.

Who should attend?

- Multi-craft Maintenance Technicians
- Electricians
- HVAC Technicians
- Maintenance Managers
- Maintenance Planners
- Apprentices

Registration benefits:

- **CONTENT VARIETY:** A wide range of programming to choose from, including electrical safety, motor controls, variable frequency drives, and more.
- **FOCUS:** attendees can choose their session content based on individual needs or areas of interest.
- **INTERACTION:** Interactive and engaging training exercises and simulations will enhance each attendee's learning experience.
- **ACCESSIBILITY:** Easily accessible virtual learning sessions to improve safety and professional development for yourself and/or your team.
- **FLEXIBILITY:** Anyone who signs up will receive access to recorded sessions for 30 days after the conference. This allows you to reduce your facility downtime and varying workplace shifts by letting your employees attend the live session or watch the recorded conference at a later time.
- **AFFORDABILITY:** This conference is priced to provide affordable access to expert instructors and educational content.

Friday, November 4th from 8:00 AM – 4:30 PM CST.

Track 1:

- 8:00 AM - 8:30 AM | Opening Session
- 8:30 AM - 9:30 AM | Electrical Safety, the NFPA 70E, and How it Applies to Troubleshooting
- 9:45 AM - 10:45 AM | Electrical Fundamentals: Practical Knowledge Essential for Troubleshooting
- 11:00 AM - 12:00 PM | Troubleshooting with a Multimeter — Beyond the Basics
- 12:00 PM - 1:00 PM | Lunch
- 1:00 PM - 2:00 PM | Safely Testing and Replacing Fuses when Troubleshooting
- 2:15 PM - 3:15 PM | Understanding Electrical Voltages and How They Relate to Troubleshooting
- 3:30 PM - 4:30 PM | How to Read Electrical Schematic Diagrams for Efficient Troubleshooting

Track 2:

- 8:00 AM - 8:30 AM | Opening Session
- 8:30 AM - 9:30 AM | Relays: Understanding the Operation, Purpose, and Use in Control Circuits
- 9:45 AM - 10:45 AM | Motor Starters: How They Work and How to Test & Troubleshoot Them
- 11:00 AM - 12:00 PM | Tips & Tricks for Troubleshooting Control Circuits
- 12:00 PM - 1:00 PM | Lunch
- 1:00 PM - 2:00 PM | Three Simple Steps for Troubleshooting Three Phase Motors
- 2:15 PM - 3:15 PM | Simplified Approach to Troubleshooting Variable Frequency Drives (VFD)
- 3:30 PM - 4:30 PM | A Simple Approach to Understanding and Troubleshooting PLC Digital Inputs and Outputs

This virtual conference is only \$195 per registrant.
